

# Construct A Dream!

---

I dream and I hope  
I hope I'm not just a dreamer,  
Others have fulfilled their life  
long Dream  
Some before they have lived  
a long life  
Does an incomplete dream Just  
Defer?  
Can it evolve into a new  
Aspiration?  
A new goal  
A new dream  
My Dream

Construct A Dream objective is to rebuild our community thru interpersonal redevelopment.

Our focus is to provide youth and aspiring adults vision and opportunity toward self sufficiency.

Thru training and development participants will progressively flow into a positive, productive and rewarding future.

# Construct A Dream... Foundation

Construct A Dream Foundation was formed to promote the wellbeing, education, occupational and character development of our youth and aspiring adults. We address educational, social, vocational, and economic issues negatively affecting our community.

Construct A Dream developed a pioneering program for youth and aspiring adults. We strive to make the public aware of our service to the community thru various resources highlighting our foundation.

Construct a Dream Foundation receives membership dues as the main source of funding for our programs.

These dues are to support Construct A Dream Crime and Drug free Foundations Mission, Vision, and Values.

C.A.D other revenue is derived from events and conferences, which provide support and proper resources for our youth and aspiring adult programs.

Construct a Dream ideas and goals are based on our core fundamentals of helping youth and aspiring adults develop the self confidence needed to reach a high level of achievement.

We believe it's important that individuals understand the benefits from living a fit healthy lifestyle. Our program dissuades and denounces the use of drugs/alcohol. A person free from these hindrances naturally energizes the mind, body and spirit for positive self production.

Although there is much to back the benefits of living a healthy drug free lifestyle many youth and adults are trapped in an environment that distracts the positive benefits of healthy living.

At Construct a Dream we offer an environment that helps the youth and aspiring adults see beyond the inner city circles that may block their potential. We believe it takes a village to fill the voids in society's impoverished low income, low education, high crime and drug abused communities.

## Training & Programs

Construct a Dream Foundation offers instruction and training as a catalyst toward a rewarding future.

Our training and program reward throughout. The Carpentry, Barbering and basic Computer training offer our participants unlimited potential for success. They serve as stepping stones with flexibility for higher education.

- The Barber industry is a gratifying occupation with unlimited potential.
- Our computer program assures our members understand common functions such as utilizing the internet for research and education.
- Our carpentry and construction training equips our members with industry tenets that last a lifetime. When you learn to construct a home you construct a dream.

---

We encourage our youth and aspiring adults to:

Reject gangs and delinquent behavior.

Learn the positive ways to resolve disputes

Abstain from premature sexual activity

Embrace importance of positive family relationships

Understand the importance of leadership

Develop their personal creative thinking and skills...

Pursue advanced education and rewarding career opportunities. ■
